

\$NCAA ON SOLANA

Launching on 06.020.2024

Overview

\$NCAA on SOLANA is the first memecoin project to commemorate the return of the NCAA football video game series. This project aims to target college football fans, avid players of NCAA football video games, as well as college sports fans. We intend to not only target these groups but also appeal to those already immersed in the crypto world. . The markets that we aim to reach on top of the transparency that our project will uphold will be taking our project to uncharted territory.

Goals

- Cultivate one of the most transparent projects on the SOLANA chain
- Reach a one million dollar market cap within our first two weeks of trading.
- Increase our market cap by two hundred thousand dollars each month thereafter and MAINTAIN our floor.
